Dear Mr. Maron,

On 10-10-05 you acted as a resource person for me during a 40 hour Non-Firearms Prohibited Weapons Identification Course instructed that week. You specifically lectured on the nomenclature of knives, their construction, and value. your presentation was well received and was positively commented on by class participants in their course evaluations.

Thank you for making yourself available and for making the content interesting and appropriate to the group.

Respectfully,

---
